

# Word Resource Cards Grades 3–5

## A

acute angle  
algorithm  
angle  
area  
area model of multiplication  
array  
as likely as unlikely  
associative property of addition  
associative property of multiplication

## B

bar graph  
base  
base ten numeral (standard form)

## C

centimeter (cm)  
certain  
circle  
circumference  
cluster  
common denominator  
commutative property of addition  
commutative property of multiplication  
composite number  
congruent  
coordinate plane  
coordinates  
cube  
cubic unit  
cup  
customary system

## D

data  
decimal  
degree  
denominator  
diameter  
difference  
dimension  
distributive property  
divide  
dividend  
divisor

## E

edge  
elapsed time  
equal  
equation  
equilateral triangle  
equivalent expressions  
equivalent fractions  
estimate  
even number  
expanded form  
experimental probability  
exponent  
expression

## F

face  
factor  
factor pair(s)  
fluid ounce (fl. oz.)  
foot (ft.)  
fraction

## G

gallon (gal.)  
gap  
gram (g)

## H

half  
hemisphere  
hexagon  
hundredth

## I

identity property of addition  
identity property of multiplication  
impossible  
improper fraction  
inch (in.)  
inequality  
intersecting lines  
isosceles triangle

## K

kilogram (kg)  
kilometer (km)  
kite

## L

likely  
line  
line of symmetry  
line plot  
line segment  
liquid volume  
liter (l)  
lowest terms (simplest form)

## M

mass  
maximum  
mean  
median  
meter (m)  
metric system  
mile (mi.)  
milligram (mg)  
milliliter (ml)  
millimeter (mm)  
minimum  
mixed number  
mode  
multiple  
multiply

## N

number line  
number name (word form)  
numerator

## O

obtuse angle  
odd number  
operation  
order of operations  
origin  
ounce (oz.)  
outlier

## P

parallel  
parallelogram  
parentheses  
partition  
pattern  
pentagon  
perimeter  
perpendicular  
picture graph  
pint (pt.)  
polygon  
pound (lb.)  
prime number  
prism  
probability  
product  
protractor

## Q

quadrants  
quadrilateral  
quart (qt.)  
quotient

## R

radius  
range  
ratio  
ratio table  
ray  
rectangle  
rectangular prism  
reflection  
remainder  
rhombus  
right angle  
right triangle  
rotation  
rounding

## S

scale  
scalene triangle  
square  
square number  
square unit  
straight angle  
sum or total  
surface area  
symmetry

## T

table  
tenth  
term  
theoretical probability  
thousandth  
tile  
translation  
trapezoid  
triangle  
triangular prism

## U

unit  
unit fraction

## V

variable  
vertex or corner  
volume

## W

whole number

## X

x-axis

## Y

y-axis  
yard (yd.)

## Z

zero angle  
zero property of multiplication
